**MEMORANDUM FOR:** Office of Legislative Counsel

**SUBJECT :** Warsaw Pact Study Published by  
Jackson Subcommittee

1. The attached study of the Warsaw Pact, published by the Senate Subcommittee on National Security and International Relations in May 1966, was prepared for the Subcommittee by the Eastern European Division of OCI and coordinated with other divisions as appropriate. It's a complete and accurate study of the Warsaw Pact.

2. To my knowledge it has never been made public that this study was produced in CIA. At the time of its release Senator Fulbright publicly stated that he thought Senator Jackson's subcommittee was trespassing on the foreign policy area Senator Fulbright had staked out as the special province of his committee.
